Go to [Interlinear index](#) [Bibles Index](#) | [Search this website](#) | [Bible Studies Index](#) [Introduction](#) This is a truly remarkable Hebrew - English interlinear bible of the Old Testament from Biblos, which will be a total blessing to anyone interested in a deeper study of the Hebrew bible. It would be difficult for anyone who does not design websites to appreciate how much effort and work must have gone in to produce it. There is the Hebrew script of each word, with diacritical marks for those who understand their importance, and an English translation of each word below. Above each Hebrew word there is a transliteration which helps people to pronounce the Hebrew word, and linked to each transliterated word there is a page which gives a list of other places where the same word is used in the bible, together with translations from NAS, KJV, and the Interlinear Bible. Above each transliterated word there is a Strong's Number for the Hebrew word, and this is linked to a page which gives definitions of the word from Strong's Concordance, the NAS Exhaustive Concordance, and the Brown, Driver Briggs - Gesenius Hebrew English Lexicon. You can click directly to any chapter of this interlinear from the links below.
